M SERIES

LEGENDARY
MICROPHONES

The cult microphones of the beyerdynamic M Series combine outstanding sound characteristics with rugged quality in characteristic shape. Hardly another microphone is linked to the history of rock and roll in quite the way that for example our ribbon microphone M 160 or the dynamic model M 88 TG is.

The names of the microphones differ according to the transducer type – M stands for dynamic, MC stands for true condenser and MCE stands for condenser.

	M 58	M 69	M 88	M 99	M 130	M 160	M 201	MC 840	MC 910	MC 930	MC 950	MCE 72	MCE 85	MM1
